# An experience like no other

The **World Education Summit** will be the first time that leading speakers, schools and organisations from the national and international education system will be brought **straight to you in the comfort of your own home or workplace.**

Its festival style atmosphere will celebrate achievements and developments in education, with provocative and stimulating debate about current and emerging challenges.

The four-day Summit will have enough content to be your CPD for the entire year. No matter what age you teach, whether you're an NQT or have been a Headteacher for longer than you can remember, **there is a pathway for you.**

## SUMMIT AGENDA

The internationally friendly agenda will run 10am-6pm GMT but all sessions are available on-demand after the live event. Full agenda available on website.
