

# Direct Instruction

## Presented by Kris Boulton

Kris is an international teacher trainer, education writer and former teacher. He is currently the director of Up Learn, providing A level study and revision tools to support students via cognitive science and AI. Kris writes for the *TES*, and his interest in teacher education stems from the belief that it's one of the biggest levers for school improvement.

**£299 + VAT**

Make sure you ask about additional delegate discounts

- 📌 Techniques to improve the knowledge and skills of learners
- 📌 How being teacher-centred can get the enjoyment back
- 📌 Implement ideas as an individual or across a school/MAT
- 📌 At the end of this course you will:
  - Understand how di significantly accelerates knowledge acquisition
  - Have practical techniques to apply di in your classroom

**New  
Course**

## What is direct instruction (di)?

Unpick the research evidence on di  
The 5 principles of di  
Expose the myths around di such as 'It's rote learning'  
Explore research by Siegfried Englemann

## Why use direct instruction?

The benefits of di for learners  
Planning techniques that complement this pedagogy  
Allow learners to develop beyond surface-level understanding  
Know how to build these sequences across subjects

## Key techniques

The 3 learning mechanisms  
Efficiency and pace of instruction  
Assessment frequency

## How to guide:

- Complement a high expectations behaviour system
- Add to a knowledge-rich curriculum
- 'Sell' a di approach to staff and parents
- Utilise worked examples in your school
- Help students learn through visual organisers
- The basis of mastery programmes
- Teaching techniques
