

# Quality Assurance in Schools

How to move from quality control to quality assurance and become more effective as an organisation

## Presented by Kay Brennan

Kay is an energetic, innovative senior leader and teacher with nearly 30 years' experience of working in challenging schools. Her skill set is deeply rooted in the provision of quality-first teaching and the development of a whole-school culture that embraces this.

## £299 + VAT

Make sure you ask about additional delegate discounts

- ✓ Learn how to lead on QA across your organisation
- ✓ Discover the significant benefits of moving from QC to QA
- ✓ A QA Toolkit for fast implementation of new processes
- ✓ Discover practical applications of QA:  
improving quality-first teaching, developing an open-door culture, and making effective use of data

New  
Course

## Quality assurance in action

- How to develop a quality systems approach in your school
- Effective quality management: systems, processes, people
- Systematic measurement using comparisons and monitoring processes

## QA to improve whole-school performance (the QA Toolkit)

- Goal-setting for QA
- Reverse engineering
- Data control
- Feedback loops

**CPD that is focused, timely and effective, allowing staff to be supported and developed throughout their career**

**Plan a whole-school structure that allows responsibility for quality assurance to be distributed across the entire school.**

*"Kay has a way of putting you at ease and making your training experience fun, informative and highly developmental."*

Chris Hanks, Spen Valley High School
