- ✓ **Repurpose in-class time to promote questioning, discussion and deep learning**
- ✓ **Accelerate progress by meeting the needs of all learners**
- ✓ **Develop pupil understanding and encourage application of knowledge in different contexts**

A 'back-flipped' approach to learning:

- Promote learner choice, autonomy and independence
- Develop learners' digital literacy skills
- Increase time for practising and applying knowledge and skills
- Effective questioning techniques and higher level discussions
- Enhance peer assessment and collaborative learning
- Greater independence and student-led learning

Improve individualised support:

- Optimise differentiation and self-regulation strategies
- Avoid limiting learning by presuming potential ability
- Detect errors in thinking

Practical ideas for developing a flipped approach:

- Develop an interactive virtual learning environment
- Make use of freely available, accessible tools
- Manage non-compliance and improve engagement

"Steve was highly rated by our staff. He had an engaging manner and was clearly knowledgeable I loved the way he enthused a large group of staff on the first day back! Excellent in all respects."

Wendy Hale, Cowley International College

"Enthusiastic and knowledgeable – [Steve] found out about our needs and did his best to meet them and give us practical tips.."

Nadia Allen, Thorpe St Andrew School and Sixth Form
