Mastery Maths
in Early Years

OSIRIS EDUCATIONAL

Presented by Jayne Carter

Jayne specialises in practical guidance around mastery maths and is skilled at leading others to consider how their provision reflects current research. She provides a wide range of training with a clear focus on the role of the adult in scaffolding, challenging and supporting children's learning.

❝ **How to ensure that children transition into Year 1 with a firm understanding of maths**

❝ **Create effective change to guarantee a progressive skills-based curriculum that starts in Early Years**

❝ **Practical toolkit to improve a child's depth of understanding and learning:**
- Strategies   - Techniques
- Progressions   - Assessment to secure progress

New Course

Mastery Maths
Explore the mastery approach to teaching maths:
– Key principles
– Recommendations
– Expectations
Unpick the impact and outcomes based on current research
What does mastery maths look like in Early Years?
Encourage mathematical development of key skills
Misconceptions: how are these matched to expectations?

The Role of the Adult in:
Plan for a mathematically challenging learning environment
Use manipulatives to promote mathematical understanding
Support/challenge all children to secure their learning

The perfect mastery checklist including key websites, resources and publications

The perfect mastery checklist, including:
– Key websites
– Resources
– Publications
– Strategies to challenge children's deep thinking
– Current research materials

"Jayne encouraged me to reflect on our CPD needs. This encouraged me to be reflective in my practice and to draw upon the expertise of Jayne as an Early Years expert."

Laura Evans, Malcolm Sargent Primary School, Stamford
