Professor John Hattie

World-renowned, award-winning education researcher and best-selling author, Professor John Hattie has been closely examining what works best in student learning and achievement for the better part of 30 years.

His ground-breaking research masterpiece, Visible Learning, proves once and for all what actually works for learners and now building on this success, Visible Learning: the Sequel has just been released. This highly anticipated sequel expands on his original model based on evidence of impact. His list of accolades and awards is almost as exhaustive, but John is more than deserving of every bit of that praise.

"Our job is to help teachers see learning through the eyes of kids. And the great thing is when they do, teachers change."
